

#### Date: 2/13/2015 (Preparation or Last Revision)

Complies with 91/155/EEC, 1907/2006 (REACH) and amendments, OSHA's Hazard Communication Standard, 29 CFR 1910.1200; and the requirements of the U.S. Department of Labor Occupational Safety & Health Administration.

## **Regulatory Status:**

This preparation is not classified as hazardous under U.S. OSHA 29 CFR 1910.1200; E.C. Directive 1999/45/EC; Canadian R.S. 1985, c. H-3; U.K. CHIP 2002 No. 1689; and/or U.N. GHS ST/SG/AC 10/30.

None of the components present in this preparation at concentrations equal to or greater than 0.1% are listed by IARC, NTP, OSHA or ACGIH as a carcinogen.

## **SECTION 2: HAZARDS IDENTIFICATION**

#### **Emergency Overview**

Sodium polyacrylate is a white, granular, odorless polymer that yields a gel-like material with the addition of water. It is insoluble in water and causes extremely slippery conditions when wet. Although not regulated as a hazardous material, the respirable dust is a potential respiratory tract irritant. An eight-hour exposure limit of 0.05 mg/m<sup>3</sup> is recommended.

## Potential Health Effects: Eyes

Dust may cause burning, drying, itching, and other discomfort, resulting in reddening of the eyes.

# Potential Health Effects: Skin

Exposure to the dust, such as in manufacturing, may aggravate existing skin conditions due to drying effect.

## Potential Health Effects: Ingestion

Although not a likely route of entry, tests have shown that polyacrylate absorbents are non-toxic if ingested. However, as in any instance of non-food consumption, seek medical attention in the event of any adverse symptoms.

## Potential Health Effects: Inhalation

Exposure to respirable dust may cause respiratory tract and lung irritation and may aggravate existing respiratory conditions.

#### HMIS Ratings: Health: 1 Fire: 0 Reactivity: 0

Hazard Scale: 0 = Minimal 1 = Slight 2 = Moderate 3 = Serious 4 = Severe \* = Chronic Hazard

| CAS #   | Component                         | Percent |  |  |
| 9003-04-7   | Acrylic Acid Polymer, Sodium Salt | > 85    |  |  |

## **Component Information / Information on Non-Hazardous Components**

The components of this product are not regulated as hazardous under 29 CFR and 49 CFR. However, the potential for respiratory tract irritation as a result of inhalation of this material as a respirable dust is recognized. See Sections 8, 11, 14, and 15 for further regulatory information.

## SECTION 4: FIRST AID MEASURES

Primary routes of entry: Eye and skin contact; ingestion; inhalation & skin absorption. Medical condition aggravated by exposure: Eyes/skin hypersensitivity

- **EYES:** Immediately flush with plenty of water. Remove particles remaining under the eyelids. Get medical attention if irritation persists.
- **SKIN:** Remove polyacrylate absorbent dust from skin using soap and water.
- **INGESTION:** Non-toxic by ingestion. However, if adverse symptoms appear, seek medical attention.
- INHALATION: If inhaled, move to source of fresh air. Seek medical attention if symptoms persist.

### SECTION 10: STABILITY AND REACTIVITY

STABILITY:

TY: This material is chemically stable under normal and anticipated storage and handling conditions.

CONDITIONS TO AVOID: Store protected from moisture. Keep away from heat and sources of ignition.

None (rabbit)<sup>1</sup>

## INCOMPATIBILITY (MATERIAL TO AVOID): None

HAZARDOUS DECOMPOSITION OR BY-PRODUCTS: Decomposition above 200°C. Thermal decomposition can give toxic byproducts, organic vapors, and carbon monoxide.

Not an irritant (human, rabbit)

Non-sensitizing (Guinea pig)<sup>1</sup>

TA1537) and Escherichia coli (WP2uvrA)

Not an irritant (rabbit)

Not an irritant (dog)

LD<sub>50</sub> rat > 1600 mg/kg,<sup>1</sup> LD<sub>50</sub> mouse > 3200 mg/kg,<sup>1</sup>

Dust may cause eye, nasal, or bronchial irritation

Ames test is negative, using Salmonella typhimurium (TA98, TA100, TA1535 and

## HAZARDOUS POLYMERIZATION: Will not occur.

### SECTION 11: TOXICOLOGICAL INFORMATION

Acute and Chronic Toxicity

#### **General Product Information:**

Corrosiveness Acute oral toxicity: Skin irritation: Eye irritation: Vaginal Mucosal Irritation Ames Mutagenicity Test

Skin Contact sensitization Symptoms of Exposure

<sup>1</sup> = data of contracted outside laboratory

#### Carcinogenicity:

**Component Carcinogenicity** No information is available.

#### **Chronic Toxicity**

Chronic inhalation exposure to rates for a lifetime (two years) using sodium polyacrylate that had been micronized to a respirable particle size (less than 10 microns) produced non-specific inflammation and chronic lung injury at 0.2 mg/m<sup>3</sup> and 0.8 mg/m<sup>3</sup>. Also, at 0.8 mg/m<sup>3</sup>, tumors were seen in some test animals. In the absence of chronic inflammation, tumors are not expected. There were no adverse effects detected at 0.05 mg/m<sup>3</sup>.

### SECTION 12: ECOLOGICAL INFORMATION

#### Ecotoxicity

#### A: General Product Information

Composted polyacrylate absorbents are non-toxic to aquatic or terrestrial organisms at predicted exposure levels. B: Component Analysis – Ecotoxicity – Aquatic Toxicity

# No information available.

## Environmental Fate

Polyacrylate absorbents are relatively inert in aerobic and anaerobic conditions. They are immobile in landfills and soil systems (> 90% retention), with the mobile fraction showing biodegradability. They are also compatible with incineration of municipal solid waste. Incidental down-the-drain disposal of small quantities of polyacrylic absorbents will not affect the performance of wastewater treatment systems.

# SECTION 13: DISPOSAL CONSIDERATIONS

#### **US EPA Waste Number & Descriptions**

#### A: General Product Information

This product is a non-hazardous waste material suitable for approved sold waste landfills.

#### **B: Component Waste Numbers**

No EPA Waste Numbers are applicable for this product's components.

#### **Disposal Instructions**

Dispose of in accordance with Local, State, and Federal Regulations.

## SECTION 14: TRANSPORTATION INFORMATION

#### International Transportation Regulations:

This product is not a hazardous material and is not regulated by the Department of Transportation.

## SECTION 15: REGULATORY INFORMATION

## **US Federal Regulations**

A: General Product Information

This product is not federally regulated as a hazardous material.

- B: Clean Air Act
  - No information is available.
- C: Component Analysis
- No information available. D: Food and Drug Administration
  - No information available.
